INTERNAL – SAP and Partners Only

Your partnership with SAP is important to us,

and your success in building and growing your business with SAP cloud solutions depends on how well you develop your market. The Development Fund is designed to accelerate your business and is targeted at providing you with the investments you need to generate new revenue from SAP cloud solutions that are aligned with SAP strategic priorities.

Global guidelines and requirements

This guide is your key to understanding the approved demand generation, and pre-and post-sales initiatives, you can utilize to enable your market success. The guide outlines each eligible activity, the percentage of funds you are eligible to receive for each activity, and the required details you need to provide for your proposal and for the claims process. Please note, a complete list of non-claimable items is in Appendix C.

The guide covers the five categories of investment - click on a category/sub-category for further details:

CATEGORY	ACTIVITY	DESCRIPTION	REIMBURSEMENT RATE
Activation	Cloud Test and Demo	Cloud Test and Demo Licenses provided by SAP for partners to be reimbursed on initial and renewal orders.	Up to 100%
Demand Generation	Demand Content	Marketing Content including E-books, Customer Stories, Whitepapers, Positioning and Messaging Documents. See the full list of eligible content here.	Up to 100%
	Demand Services	Services performed by an Agency or Partner, such as Digital Campaign Execution Services, SEO Services, Social Campaign Execution Services, Social Selling Tools, Target Lists Services and Telesales Lead/Opportunity Qualification Services.	
	Sales Content	Sales Content including Product Demo Video, Partner Sales Battlecard, Partner Sales Guide, Partner Sales Playbook, Partner Sales Script and Other Sales Content.	
	Event	SAP-led physical event – sponsorship, demand gen. execution, individual partner employee registration or ticket fee.	
		Webinar/Digital Event services	
		Third party event (Industry, tech conference, Ignite, Invent, etc)	Up to 50%
		Partner-led physical/hybrid event	
	On-premise solution Demand Generation	SAP Business One Solution demand generation (this option can only be selected using Earned Development Fund)	Up to 50%
Enablement	SAP Customer Success (CS) Enablement	SAP-led AI Use cases for CS, CS 1:1 Coaching, CS Business Model and CS Hands on Workshop. See full list of CS Enablement on the Partner Benefits Catalog.	Up to 100%
	Partner Enablement	SAP-led Adoption and Deployment training sessions, SAP-led Marketing, Sales and Pre-Sales training sessions.	
	Event	SAP-led Physical Event – sponsorship, execution, Individual partner employee registration or ticket fee.	
	Technical Training & Certification	SAP delivered coaching and post implementation services, SAP Certification Training (all trainings on training.sap.com), SAP Learning Hub and Certification Exam (2 attempts), SAP Joule for Consultants	Up to 50%
Direct Pay	Direct Pay Service	Partner Benefits Catalog Direct Pay Eligible Services	Up to 100%
Recruitment	Recruitment	Candidate Screening and Assessment, Digital Recruitment, Join the SAP Family, Recruitment Event (Physical), Recruitment Event (Virtual), Sourcing e.g. Recruitment Platform, Target Lists	Up to 100%

INTERNAL – SAP and Partners Only

REGIONS

All categories and subcategories cover all regions: Asia Pacific Japan including Greater China; Europe, the Middle East, and Africa; Middle and Eastern Europe; Latin America; and North America.

ALIGNMENT WITH SAP CLOUD STRATEGY

The following rules are effective for all activities:

- Partner demand generation activities must focus on SAP cloud solutions.
- If your SAP partnership is only focused on on-premise solutions, SAP Business One is eligible for funds at the 50% reimbursement rate, as noted in the category table above. Otherwise, please speak to your SAP Partner Manager to determine whether you are eligible.
- Initiatives for partner-led physical events need special approval from SAP at the proposal stage, for which you must provide additional supporting documentation outlining business requirements, agenda, and other information to justify the proposal.

If you have questions regarding your activities, please contact your SAP Partner Manager or the Regional Fund Associate team. Remember, partner funds can help you develop your market with effective initiatives for selling cloud solutions and helping customers continue to derive value from their investment.

REIMBURSEMENTS

Please note that the reimbursement percentage rates for each activity may vary by region or program. If there is a rate variation, SAP will publish the rate change on the homepage of the Manage My Funds application. Partners must not split costs for the same activity across multiple claims. Partners must also not claim multiple activities within a single claim. If you have multiple activities within a single project, you may group them under a single Proposal, provided they fall under the same activity category.

NONCLAIMABLE ITEMS

Please view the non-claimable items table in Appendix C to understand what activities are not eligible for reimbursement.

We wish you every success in your efforts.

Note: this document should be used in conjunction with the Development Fund Overview and Process Guide. For the latest information on the Development Fund check out the SAP Partner portal here.

Activation

Utilize your development funds for SAP cloud test and demo environments (licenses or services). Explore your options to present up-to-date solutions to your customers and prospects.

ELIGIBILITY

Eligible partners can claim up to 100% reimbursement on initial or renewal orders of cloud test and demo licenses, available through SAP's non-commercial licensing price list.

CREATING YOUR PROPOSAL

When creating your proposal for cloud test and demo licenses in the Manage My Funds tool, provide:

- Proposal name
- Proposal type
- Start and end dates
- Objective
- Primary SAP solution
- Primary industry focus
- Number of expected demos each month

Note: Partners must submit a new proposal and secure fund approval before renewing demo licenses; renewals without approval are not fundable. Subscriptions are billed quarterly, so funding only covers approved quarter(s) and full-year claims may not be possible..

For SAP cloud test and demo licenses, partners can create a request with a start date and end date of one day for quicker reimbursement (the Start Date should be the subscription Start Date).

For each activation activity added to your proposal, provide:

- Type (activation)
- Name (cloud test and demo)
- Start and end dates
- Requested amount (in euros)

CLAIMS

Upload all of your invoices for approval and proof of performance items in the Manage My Funds tool. Please ensure all invoices are itemized and show the net amount and VAT separately. See Appendix B for the required proof of performance for each initiative.

Demand generation

As a partner, you can utilize development funds for different types of demand generation initiatives. For marketing guidelines and best practices, the SAP Partner Portal provides partners with a wealth of information to help you become an effective marketer, increase demand generation, and help fill your pipeline with targeted, quality leads. Learn more here.

DEMAND CONTENT AND SALES CONTENT

Demand content and sales content can help you at any point within the sales funnel, from gaining initial interest, to giving prospects a reason to sign up for a sales engagement, to help distinguish your organization by showing customers you are a thought leader in your industry.

Eligible marketing content includes:

DEMAND CONTENT

- Analyst/ Industry Reports
- Campaign email content
- Campaign Landing Page
- Campaign Personas
- Campaign Playbook
- Co-branded webinar deck & script
- Content syndication plan
- Customer Case Study / Customer Evidence (video)
- Customer Case Study / Customer Evidence (written)
- Data Sheet / Solution Brief
- Demand Content – Other
- eBook (interactive)
- eBook (static)
- Infographic
- Market Intelligence
- Messaging Brief
- Positioning & Messaging Framework
- Product/Solution Copy Block
- ROI tools
- Social/blog post content
- To Customer FAQ
- To Customer Pitch Deck
- To Customer Sizzle Video
- Web banners
- Webinar Brief
- Whitepaper

SALES CONTENT

- Product Demo Video
- Sales Content Other
- Partner Sales Battlecard
- Partner Sales Guide
- Partner Sales Playbook
- Partner Sales Script

See Appendix A for a definition of each of these marketing and sales content items.

DEMAND SERVICES

Demand and marketing services include the following items:

ACTIVITY NAME	DESCRIPTION
Digital Campaign Execution Services	This refers to marketing efforts executed digitally to promote a specific message, product, or service. These campaigns are typically structured with a clear purpose, a targeted audience, and measurable outcomes. They may include Email marketing, Display advertising, Programmatic ads, Paid search (PPC) and social media campaigns.
SEO Services	Search Engine Optimization (SEO) Services focus on improving a website's visibility in organic search engine results. This includes both: On-site SEO: optimizing content, metadata, and structure of the website. Off-site SEO: building backlinks and improving domain authority. SEO efforts aim to increase authentic search traffic for SAP-related solutions and may also include web development activities to support optimization
Social campaign execution services	Marketing effort that uses social media platforms to achieve specific business goals. These campaigns are designed to promote a particular message, product, or service, and they typically have a focused purpose, targeted audience, and measurable outcomes.
Social selling tools	Digital Platforms and applications that help sales professionals leverage social media to find, connect with, and nurture potential customers. These tools facilitate the process of building relationships and driving sales through social networks. For further reference Digital Modalities
Target list service	Curated list of potential customers or clients that a business aims to reach with its marketing efforts. This list is typically created based on specific criteria to ensure that the marketing messages are directed at the most relevant audience.
Telesales lead/opportunity qualification services	Dedicated teams to convert marketing qualified leads (MQLs) to sales qualified leads (SQLs) based on call-downs to potential customers.

ELIGIBILITY

Demand generation activities are eligible for up to 100% reimbursement (as per table page 4) excluding SAP Business One demand generation activities that are reimbursable for up to 50% (as per table page 4) . The restrictions on Demand Services, outlined above, apply for the SAP Business One 50% reimbursement.

ON PREMISE SOLUTION DEMAND SERVICES

- SAP Business One Solution focused demand generation services; only Demand Services outlined above are eligible and reimbursable for up to 50%. Note: only earned development funds can be allocated to on-premise solution demand generation activities.

INTERNAL – SAP and Partners Only

CREATING YOUR PROPOSAL

When creating your proposal for demand services in the Manage My Funds tool, provide, where applicable:

- Proposal name
- Proposal type
- Objective
- Estimated pipeline
- Estimated revenue
- Estimated number of opportunities
- Estimated number of impressions
- Estimated number of leads
- Estimated number of new names

For each demand generation activity added to your proposal, provide:

- Activity name
- Start and end dates
- Requested amount for the activity
- What is the content or service name/description
- Who will deliver the activity

Activity Type and Name	Select the appropriate Demand Generation activities that align with your Business Plan
Start and End date	The duration should match the exact planned marketing period, with a minimum of one week for most activities. However, for Social Selling Tools, the Start Date should be the subscription Start Date and the End date can be one day from the Start date. Costs after the End Date cannot be reimbursed.
Requested Amount	Up to 100% of the total amount for most activities, and up to 50% for OP Demand Generation.
Who will Deliver this activity	Partner or SAP chosen agency

CLAIMS

Upload all of your invoices, any third-party invoices and proof of performance items in the Manage My Funds tool. Please ensure all invoices are itemized and show the net amount and VAT separately. See Appendix B for the required proof of performance for each initiative.

INTERNAL – SAP and Partners Only

Enablement

Enablement covers several activities and strategies designed to help you position and sell SAP cloud solutions to customers, plus services to assist with pre-and post-sales activities that drive customer success. Enablement options include the following, offered only by SAP or an agency chosen by SAP.

CUSTOMER SUCCESS ENABLEMENT

Includes onboarding, role-based learning paths, and tools like IDPs, Success Maps, and AI labs to build CS capabilities

ACTIVITY NAME	DESCRIPTION
AI Use cases for Customer Success	SAP-led enablement showcasing how AI can be applied to enhance customer success outcomes, including use cases like predictive insights, automation, and customer engagement optimization.
Customer Success 1:1 Coaching	Personalized coaching sessions designed to build the capabilities of Customer Success Managers (CSMs) through tailored guidance and real-world scenario discussions.
Customer Success Business Model	Training focused on SAP's CS business model, including value realization frameworks, engagement strategies, and lifecycle management best practices.
Customer Success Hand On Workshop	Interactive sessions where participants apply CS methodologies and tools in simulated or real scenarios to reinforce learning and practical application.
Customer Success Health Score and Tools	Enablement on how to use SAP's health scoring models and tools to monitor customer engagement, adoption, and risk indicators.
Customer Success Practice Assessment (CSPA)	A structured evaluation of a partner's CS practice maturity, identifying strengths and areas for improvement across people, process, and tools.
Customer Success Process Development	Workshops or consulting sessions to help partners design or refine their CS processes aligned with SAP's best practices.
Customer Success Services Monetization use cases	Training on how to package and monetize CS services, including examples of value-based offerings and pricing models.
Value Management Onboarding	Introductory training on SAP's value management approach, including tools and templates for aligning customer goals with measurable outcomes.
Value Realization Advanced Coaching	Advanced coaching sessions focused on deepening value realization skills, including stakeholder alignment, KPI tracking, and executive reporting.
Value Realization Hands On Course	Practical training where participants apply value realization techniques in guided exercises, often using real customer data or case studies

INTERNAL – SAP and Partners Only

PARTNER ENABLEMENT (SALES, MARKETING, PRESALES, IMPLEMENTATION)

SAP-led initiatives designed to equip partners with the knowledge, tools, and capabilities needed to effectively position, sell, and implement SAP solutions. These activities are strategically aligned with SAP's go-to-market priorities. The goal is to accelerate partner readiness and pipeline conversion through structured enablement across four key dimensions.

ACTIVITY NAME	DESCRIPTION
Adoption and Deployment Services Enablement	Delivered through live in-person or online training sessions, this activity supports partners in implementing SAP solutions using frameworks like SAP Activate.
Marketing Enablement	Focuses on marketing excellence workshops, concierge services, and digital audits to enhance partner-led demand generation and campaign execution.
Sales Enablement	Provides enablement on sales methodologies, value-based selling, and positioning strategies to help partners close deals more effectively.
Pre-Sales Enablement	Offers pre-sales training and demo readiness to strengthen partners' ability to articulate and showcase SAP cloud solutions to customers.
SAP-led Events	SAP-led events (see page 14)

INTERNAL – SAP and Partners Only

TECHNICAL TRANING & CERTIFICATION

Includes SAP-led training programs, licenses and tools that help partners build technical expertise and validate their skills. This covers SAP Certification Training and SAP Learning Hub (or other SAP platforms and trainings listed on training.sap.com), which provide guided learning, live sessions, and exam access to support certification and continuous learning. It also includes SAP Joule for Consultants.

ACTIVITY NAME	DESCRIPTION
Partner Coaching Services	SAP led coaching sessions designed to upskill partner teams in technical solution areas, often delivered 1:1 or in small groups.
Post Implementation Services	Enablement activities delivered after go-live to ensure solution adoption, optimization, and partner readiness for future deployments.
SAP Certification Training	Training programs that prepare individuals for SAP certification exams, typically aligned with role-based learning paths (all trainings on training.sap.com)
SAP Learning Hub – Employee	Subscription-based access to SAP Learning Hub, including guided learning, live sessions, and certification attempts.
SAP Joule for Consultants	Subscription-based access to SAP conversational AI assistant for SAP Consultants, providing expert-level guidance, code interpretation, and best practice recommendations based on the SAP knowledge base.

ELIGIBILITY

These partner enablement activities are eligible for **up to 50% reimbursement.**

CREATING YOUR PROPOSAL

When creating your proposal for enablement in the Manage My Funds tool, provide:

- Proposal name
- Proposal type
- Objective
- Number of employees certified
- Number of employees enabled
- Number of SAP Learning Hub licenses
- Primary SAP solution
- Number of education courses
- Estimated total cost

For each enablement activity added to your proposal, provide:

- Activity type
- Activity name
- Start and end dates
- Requested amount for the activity
- The course, service or platform name
- Who will deliver the activity

CLAIMS

Upload your SAP invoices or invoices from an agency appointed by SAP and your proof of performance items in the Manage My Funds tool. Please ensure all invoices are itemized and show the net amount and VAT separately. See Appendix B for the required proof of performance for each initiative. You may submit claims for these enablement services:

- Registration and tuition for SAP sales training
- Registration and tuition for SAP marketing training
- Registration and tuition for SAP technical training, including Customer Success workshops
- Registration and tuition for SAP technical training and coaching (including Customer Success workshops)
- A ticket to join an SAP-hosted training event

INTERNAL – SAP and Partners Only

Partner Benefits Catalog Direct Pay Services

The Partner Benefits Catalog (PBC) includes a range of enablement and other services available through the Direct Pay option. Each eligible service is labelled within the PBC as a Direct Pay Development Fund eligible offering. Once your Direct Pay Service Proposal is approved, you will be notified and can order the approved services directly through the PBC using the Direct Pay option. Please note, once the Direct Pay service is ordered, the activity is auto-claimed within the Manage My Funds system, with the ordering of the service completing the auto-claim process.

For the full list of Direct Pay Development Fund services offered, please check out the Partner Benefit Catalog here.

Events

SAP, partner-led as well as general and industry specific events can provide a good opportunity to reach a specific target group. You can often participate as an exhibitor, sponsor, or speaker.

Trade shows can also be a valuable part of a comprehensive marketing strategy for reaching new target groups and meeting prospects and customers. Trade shows offer the opportunity for personal discussions and real-time demos of SAP solutions. You can spend time cost-effectively in a non-threatening environment with prospects who are just starting the decision-making process.

You can leverage development funds for the following types of events:

WEBINAR/DIGITAL EVENT SERVICES
Virtual events include platforms and tools that enable the hosting of live, web-based seminars, presentations, or events. These services facilitate real-time communication and interaction between presenters and audiences over the internet.

SAP-LED PHYSICAL EVENTS
SAP-led events such as product seminars, forums, executive summits, and the SAP Sapphire® / Connect events allow you to participate in a marketing initiative, hosted and promoted by SAP. Typically, SAP offers event packages for partners that may include a demo opportunity, admission for attendees, or event-related services. Additionally, you may invite your own prospects and customers to the SAP-led event.

SAP also provides opportunities for partners to participate in SAP-led events where enablement activities occur, offering an opportunity for partners to learn about the latest information around SAP strategies and cloud solutions.

PARTNER-LED / THIRD PARTY PHYSICAL EVENTS (50%)
Partner-led and third-party seminars, in-person meetings, and roadshows promote SAP solutions to prospects and customers and enable in-depth Q&A. Partner involvement may include: partner-hosted; partner participating (e.g., Industry, tech conference, Ignite, Invent, etc / booth at another organizer's event); or co-hosted with another entity. Hybrid events (online + physical) are treated as physical events for program purposes.

REGISTRATION AND TICKETS FOR SAP-LED PHYSICAL EVENTS
Use development funds for individual partner employee registration or ticket fees.

ELIGIBILITY
Virtual events are up to 100% eligible for reimbursement.

SAP-led physical events are eligible for up to 100% reimbursement, with registration and tickets at a maximum cost of €10,000 per partner, per event.

Partner-led physical events, where at least 80% of the agenda and associated costs need to be for business-oriented costs and focused on demand generation for SAP cloud solutions, are eligible for 50% reimbursement only. Food, catering, and beverage costs for the partner-led event are to be reimbursed at not more than 20% of the claimable amount.

INTERNAL – SAP and Partners Only

CREATING YOUR PROPOSAL

When creating your proposal for events in the Manage My Funds tool, provide:

- Proposal name
- Proposal type
- Objective
- Estimated number of attendees
- Estimated revenue generated from the proposal
- Estimated pipeline from the proposal
- Estimated number of registered deals for the proposal

For each demand generation activity added to your proposal, provide:

- Activity name
- Activity type
- Start and end dates
- Requested amount for the activity

CLAIMS

To complete claim approval, your invoice, as well as all third-party invoices and proof of performance must be uploaded in the Manage My Funds tool. Please ensure all invoices are itemized and show the net amount and VAT separately. See Appendix B for the required proof of performance for each initiative. Third-party invoices must be dated after the proposal creation date.

For SAP-led events with up to 100% reimbursement, you may claim only SAP invoices or an agency chosen by SAP. Attach the signed sponsorship agreement issued to you by SAP to the claim as supporting evidence. For any costs, other than those included within the sponsorship agreement, partners must to submit a separate proposal (under the appropriate Category/Activity type) and seek approval from SAP.

- Booth expenses, such as floor rental, the booth itself, and one-off signage
- Inclusion in the event or trade-show catalog or brochure
- Single-use printed or digital invites
- PR digital activities to invite prospects
- Attendance or registration fee, excluding accommodation and travel costs
- Speaking slots in the show forum
- Production costs or purchase price of show giveaways (limits apply)
- Audiovisual and electrical equipment rental
- Shipping costs
- Phone, T1 carrier, or Internet lines

For Partner-led and Third party events, a minimum of 80% of the agenda and associated costs need to be for business-oriented costs, and focused on demand generation for SAP cloud solutions, you may claim:

- Rental of the room or conference space and required audiovisual equipment
- Food, catering, and beverage costs for the event to be reimbursed at not more than 20% of the claimable amount
- Gift CDs, production costs, and purchase price of giveaways (limits apply – see below)
- Audiovisual and electrical equipment rental
- Attendance or registration fee, excluding accommodation and travel costs
- PR activities to invite prospects
- Shipping costs
- Costs related to the booth and signage
- Agency creative fees
- Agency social execution fees

Partners should use discretion and take care to ensure that any expenditure on such items as gifts, giveaways, or meals offered to or received by any customer is in the ordinary and proper course of business and could not reasonably be construed as a bribe or improper inducement. Gifts and giveaways are only claimable for Partner-led events; stated limits apply as well as restriction on items that are non-claimable. Business courtesies and giveaways cannot be designed or appear to be designed to influence the recipient and secure unfair preferential treatment. A general guideline for evaluating whether a business courtesy is appropriate is whether public disclosure would be embarrassing to the partner or SAP. The monetary limit of EUR 50 per person applies to such courtesies; gift cards or equivalent cash-like instruments are not allowed. See Appendix C for further details.

REGISTRATION AND TICKETS FOR SAP-LED PHYSICAL EVENTS

Registration and tickets for SAP-led physical events for cloud solutions at a maximum cost of €10,000 per partner per event are up to 100% reimbursable and require no additional approval. The corresponding category for requests is physical events tickets/registration. This option secures reimbursement using development funds for tickets that are registered and paid for on behalf of your customers attending SAP-led physical events.

Note the following additional guidelines:

- Please remember to always abide by the SAP Partner Code of Conduct.
- The customer invitation to SAP-led physical events is to come directly from SAP
- You should ensure that public sector customers are invited only to the core official SAP physical event and not to any side event

Recruitment

Partners need sufficient resources to meet customer demand and to ensure customer satisfaction and value. SAP allows partners to use development funds to drive the following recruitment activities for SAP Consultants and implementation focused roles only:

- Candidate screening and assessments (third party only)
- Recruitment Event (Physical)
- Digital recruitment
- Recruitment Event (Virtual)
- Join the SAP Family
- Sourcing e.g. Recruiting Platform, Target Lists

ELIGIBILITY

Recruitment activities are eligible for up to 100% reimbursement. Physical, partner-led recruitment events are only eligible for up to 50% reimbursement.

CREATING YOUR PROPOSAL

When creating your proposal for recruitment in the Manage My Funds tool, provide:

- Proposal name
- Proposal type
- Objective
- Estimated number of attendees (to the recruiting event)
- Estimated number of meetings to be secured (as a result of the recruitment activity)
- Estimated number of resources to be added

For each recruitment activity added to your proposal, provide:

- Activity name
- Activity type
- Start and end dates
- Requested amount for the activity

CLAIMS

For claims, your invoice, all third-party invoices, and proof of performance must be uploaded to the Manage My Funds tool. Please ensure all invoices are itemized and show the net amount and VAT separately. See Appendix B for the required proof of performance for each initiative.

You may claim third-party costs for the following services, if not provided by SAP:

- Reimbursement for costs related to digital recruitment campaigns
- Fees for applicant tracking systems or other recruitment software
- Online job board subscriptions
- Target list purchases
- Screening or assessment activities
- Fees associated with automated scheduling, candidate tracking, and recording of video interviews
- Costs associated with renting a venue or hiring a booth

RECRUITMENT ELIGIBLE ACTIVITIES

Recruitment services include the following items:

ACTIVITY NAME	DESCRIPTION
Candidate Screening and Assessments (3rd Party Only)	This activity covers the use of external, third-party services to assess, screen, or evaluate candidates as part of partner recruitment efforts. This may include skills assessments, technical tests, psychometric evaluations, or structured screening processes delivered by an independent vendor. The activity must be directly related to recruiting talent needed to support SAP-related implementations.
Recruitment Event (Physical)	A physical, in-person recruitment event organized by the partner to attract, engage, and assess potential candidates. This may include job fairs, hiring days, campus recruitment events, or partner-hosted recruitment sessions. Eligible activities focus on candidate engagement and recruitment outcomes rather than general branding or hospitality.
Digital Recruitment	Digital recruitment activities designed to attract and identify candidates through online channels. This may include paid job advertisements, recruitment campaigns on digital platforms, social media recruitment ads, or targeted online outreach aimed at sourcing talent for SAP-related implementation roles.
Recruitment Event (Virtual)	A virtual or online recruitment event conducted through digital platforms to connect with potential candidates. This may include virtual job fairs, online hiring events, webinars, or live recruitment sessions. The focus must be on candidate sourcing, interaction, and recruitment, rather than general marketing or awareness.
Join the SAP Family	Recruitment initiatives specifically aligned to SAP programs or branding, aimed at attracting candidates to roles related to SAP solutions, delivery, or ecosystem participation. These activities emphasize positioning the partner as part of the SAP ecosystem and promoting career opportunities connected to SAP technologies.
Sourcing (e.g. Recruiting Platforms, Target Lists)	This activity covers the use of recruitment sourcing tools or services to identify and build candidate pipelines. Examples include subscriptions to recruiting platforms, access to candidate databases, or the purchase of targeted candidate lists. The sourcing must support active recruitment efforts for SAP-related implementation roles and not be used for general sales or marketing purposes.

APPENDIX A: ELIGIBLE MARKETING AND SALES CONTENT DEFINITIONS

DEMAND CONTENT DESCRIPTIONS	
Analyst / Industry Reports	Research and data provided by a third-party source such as an industry analyst.
Campaign email content	Email content for an identified target audience.
Campaign Landing Page	Template HTML page with support webpage copy with stored Call to Action (CTA) assets.
Campaign Personas	A detailed, semi-fictional representation of a business's ideal customer, created based on qualitative and quantitative data about existing customers, market research and educated assumptions.
Campaign Playbook	Outlines campaign email content, timeline and CTAs assigned to each email.
Co-branded webinar deck & script	Presentation, plus supporting script to deliver a customer-ready webinar, online workshop, or online session.
Content Syndication Plan	Document that defines a strategic approach used to distribute and promote content across third-party platforms to reach a broader audience, generate leads, and support a marketing campaign.
Customer Case Study / Customer Evidence (video)	Customer case study in video format. Typically, a combination of motion graphics, b-roll, and talking head footage. Generally, runs 90- 120-seconds long.
Customer Case Study / Customer Evidence (written)	Document telling the story of how customer pain points were addressed, and benefits achieved by a solution or program. Validates the business and/or technical value for customers.
Data Sheet / Solution Brief	Document to be distributed to customer - printed or digitally -- providing a product or solution overview, technical capabilities, key themes and value propositions. This document can serve as an introduction to a topic or reminder of a conversation, directing them to learn more.
eBook (interactive)	E-book delivered in an interactive (e.g. flipbook, etc.) format.
eBook (static)	Easy to consume asset with compelling content and visuals that take a buyer centric approach to telling a thought leadership or solution
Infographic	One-page visual narrative used to present information in a compelling, consumable way to grab attention and drive awareness to a priority call to action.
Market Intelligence	Gathering and analyzing information relevant to a company's market. This includes monitoring trends, customer preferences and competitor activities to make informed business decisions.

APPENDIX A: ELIGIBLE MARKETING AND SALES CONTENT DEFINITIONS, CONT.

DEMAND CONTENT DESCRIPTIONS	
Product/Solution Copy Block	Set of 10-25-50-100-word customer ready messages to use across marketing and sales channels and materials.
ROI tools	Custom tools (ex. ROI calculator) created for customers to guide the calculation of return on investment in the purchase of a product or solution offerings.
Social/blog post content	Web article covering a selected topic (e.g. industry trend, thought leadership, solution value) targeted for a specific audience to promote a priority CTA.
To Customer FAQ	Prioritized answers to common customer questions. A "Rude FAQ" can be designed to identify and address the most difficult questions that may arise, in priority order. Rude FAQs commonly support public relations or account relations motions and/or ask me anything scenarios
To Customer Pitch Deck	A multi-slide visual asset, based on existing company brand template, used in one-on-one or one-to-many settings to drive conversation and discovery, allowing a seller to better understand the customer's business priorities and challenges and showcase hot the solution addresses those challenges. The scope leverages existing brand assets and does not include net new development of images or icons.
To Customer Sizzle Video	A short overview of a product or service, combining motion graphics, talking heads, professional voice-over, animation, and music. Typically, no more than 60-120 seconds.
Web banners	Digital graphics for web banners.
Webinar Brief	Summarizes a virtual session or webinar to send as a follow-up. Highlights a primary call to action for customer to take.
Whitepaper	Provides business or technical decision makers with a deeper level of expert information, oriented towards validating the value of the solution. This asset can take many forms, including market trends, industry insights, or implementation best practices, as examples.
Messaging Brief	Outlines solution or campaign value prop, top use cases, key messages, plus copy blocks (10-25-50 word) to utilize across customer-facing channels.
Positioning & Messaging Framework	Single source of truth to guide all marketing efforts. Provides differentiated value proposition messaging pillars, proof points, use cases, buyer personas, market and competitive landscape overview
Demand Content - Other	Custom or ad hoc assets that do not fit the standard categories above.

INTERNAL – SAP and Partners Only

APPENDIX A: ELIGIBLE MARKETING AND SALES CONTENT DEFINITIONS, CONT.

SALES CONTENT DESCRIPTIONS	
Product Demo Video	Video outlining customer value proposition and/or software demonstration.
To Partner Sales Battlecard	Internal sales resource featuring competitor strengths and weaknesses, key differentiators, customer evidence/data points, and objection handling.
To Partner Sales Guide	Orients the field to critical solution background information including targeting information, pain points, conversation starters, key messaging, available resources, and internal contacts for questions
To Partner Sales Playbook	Features sales guide content in addition to the anatomy of a sale, sales motion, summary messaging, competitive positioning, and compensation summary.
To Partner Sales Script	Internal sales document to help direct customer conversations, including qualification questions, buyer-centric talking points for common pain points, objection handling, and solution value.
Demonstration script	Document to guide sales teams to lead a software demonstration on a software application or suite of applications for a prospective customer.
Sales Content - Other	Custom or ad hoc assets that do not fit the standard categories above. *Note: check non-claimable items list before submission Appendix C*

INTERNAL – SAP and Partners Only

APPENDIX C: NON-CLAIMABLE ITEMS

The following expenses do not qualify for reimbursement by SAP and are not factored into the calculation of the total costs for qualifying initiatives:

CATEGORY	ITEMS
Physical advertising	Physical advertising, including print media, posters, flyers, business cards, and brochures. TV, radio, audio (including podcasts), print, display, and Out-of-Home (including Digital Out-of-Home) — these formats drive brand awareness rather than direct conversion, so avoid for demand-generation claims.
Media and events	Meetings with end users for relationship building; meetings with SAP or internal meetings.
Software and equipment	Fees for software implementation; equipment for support or resale; equipment for support for normal business operations.
Administrative costs	Legal, tax consulting, or accounting fees (unless specifically identified as allowable); penalty or cancellation charges for missed, late, or changed bookings; standard office stationery costs, such as business cards or other business forms.
Taxes and charges	VAT, local or foreign, that you cannot recover; charges for lost assets including tips and gratuities.
Entertainment and hospitality	Entertainment and hospitality expenses included within physical events, such as wine tastings, cooking classes, etc. Events for you or your customers (for example, concerts, theater performances, sightseeing tours, or sponsorships); sporting events (for example, golf or tennis tournaments where you are a participant, observer, or sponsor); social events not associated with approved marketing initiatives (for example, venue expenses, meals, or beverages)..
Event Tickets & Registration Fees	Tickets and registration fees for non-SAP-led events are not claimable under Development Funds. This includes tickets for partner-led events, third-party conferences, trade fairs, summits, or industry events, regardless of whether SAP solutions are promoted or discussed. Development Funds may not be used to reimburse attendance-only costs for events that are not organized or delivered by SAP. Only SAP-led event tickets explicitly defined as eligible in the guide may be reimbursed.
Travel and living expenses	Travel and living expenses, such as hotel rooms.
Employee programs	Incentive programs, salesperson incentives, or recognition events; employee salaries; programs related to employee programs or competitions.
Operational services & Operational Running Costs	Services supporting normal business operations, such as conference calls or corporate signage; charges for expedited order processing and shipping. Non-SAP related operational running costs e.g., partner's employee salaries and benefits, rent, utilities, admin expenses, insurance premiums, etc.
Marketing and content restrictions	Competitive content; posting ads to SAP's job portal.
Funding and reimbursement restrictions	Expenses eligible for reimbursement under a separate SAP program; charges already claimed through SAP Partner Portal as part of a different SAP relationship.

APPENDIX C: NON-CLAIMABLE ITEMS, CONT.

The following expenses do not qualify for reimbursement by SAP and are not factored into the calculation of the total costs for qualifying initiatives:

CATEGORY	ITEMS
Food and catering	Food, catering & beverages (including service staff such as bartenders/butlers) are claimable only up to 20% for an approved claimable amount of an event. The event must be demand-generation focused: at least 80% of the agenda and associated costs must be business-oriented and focused on SAP cloud solutions. Amounts above 20% will be disallowed or adjusted.
Professional fees	Professional memberships and association fees.
Past activities	Past activities that have incurred prior to SAP fund proposal approval; past activities for which expenses were incurred before the availability of sufficient development funds.
Internal costs	In house production costs for collateral materials or marketing campaign services; in house costs for creation or production; services provided by the partner's own employees and/or their family members.

Note: Business courtesies such as gifts and giveaways cannot exceed €50 per person, or equivalent in local currency, and cannot be offered to public sector customers or to customers during a competitive sales cycle, nor can they be in the form of cash, cash vouchers, or gift cards. The partner must consider local rules and habits that may lead to a stricter limit. Any exception to the value limit above needs to be preapproved by the SAP regional channel manager and the Office of Ethics & Compliance team at SAP.

APPENDIX D: KEY TIME FRAMES AND DEADLINES FOR REQUESTS AND CLAIMS.

These guidelines streamline the process for completing activities and submitting proposal requests and claims for the program year. The proposal request system will open in January on the first business day of the year.

Important dates for request and claim submissions (all end dates refer to 23:00 GMT on the date advised)

PROPOSAL REQUEST SUBMISSION	PROPOSAL APPROVAL	LAST ACTIVITY DATE	CLAIM SUBMISSION DATE	CLAIM EXPIRATION	REQUEST INFORMATION FOR CLAIM / PROPOSAL
Program Start date – November 14	All proposals must be approved by November 14	December 14	90-days from last activity date or December 14 whichever is earlier	March 14 of following calendar year	60-days from information request claim/proposal will expire if no response or claim expiration timeframe
